

NEURC's steps towards the settlement of a situation in the electricity market

Обсяги та ціни на РДН у торговій зоні "ОЕС України"

DAM volumes and prices in IPS trading zone

No import of electricity is allowed from the non-member countries of the Energy Community (Russian Federation and Republic of Belarus).

It is not allowed to form a negative balance value following bidding results in BCM, DAM and import/export.

The calculation of the maximum electricity sale amount on DAM and IDM in the trading zone has been introduced.

Maximum price-cap was increased in DAM and IDM :

Nighttime – up to 1 243,71 UAH /MW*h;
Daytime – up 2 655,99 UAH/MW/h.

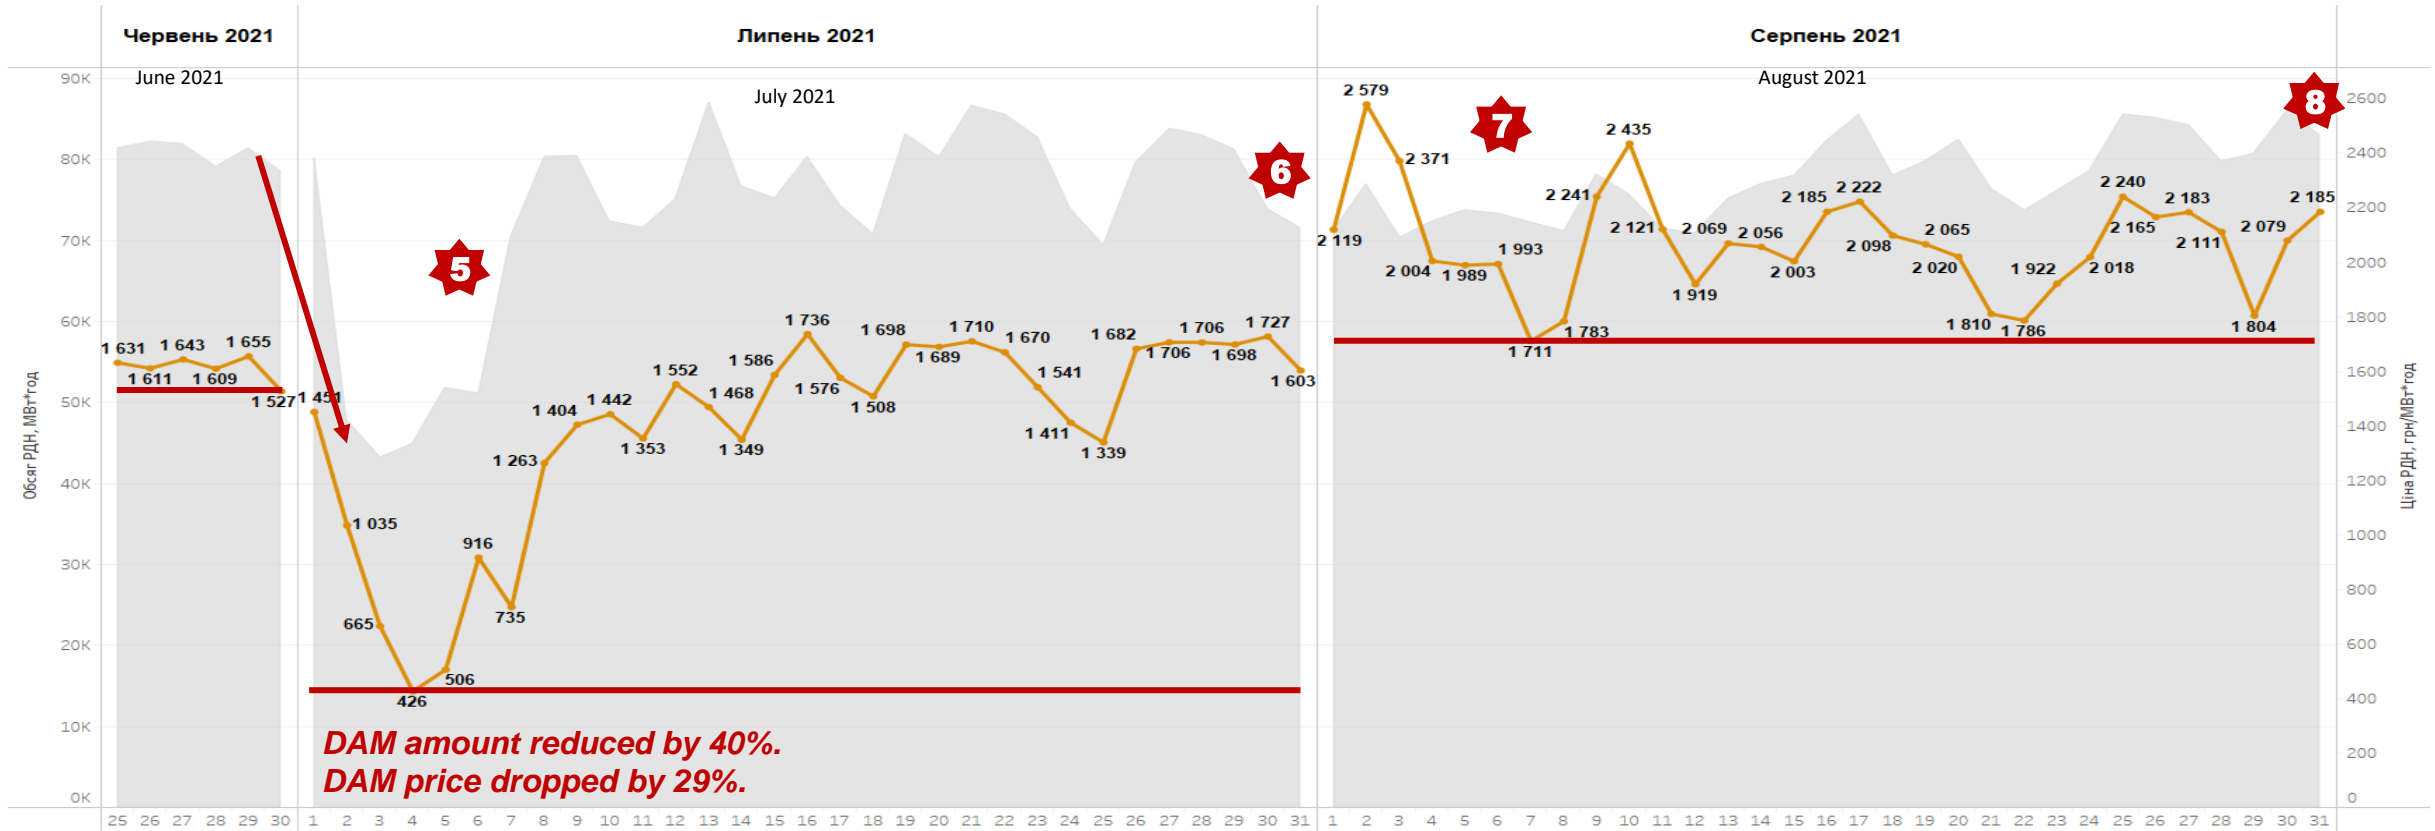

Minimum price-cap was established in IDM - 100,5 % of the DAM price .

Average weighted price in DAM in June 2021 increased by 39,89 % and volumes to 1,425 UAH/MW*h.
