

STANDARDIZATION EXPERT IN GAS MEASUREMENTS AND GAS INFRASTRUCTURE

The Energy Security Project (ESP) is a five-year project funded by the United States Agency for International Development (USAID)¹ and the largest USAID project in Ukraine so far. The ESP is implemented by a USAID Contractor, Tetra Tech ES, Inc., a California-based leading provider of services in the areas of water, environment, infrastructure, resource management, energy, and international development.²

The ESP mission is to enhance Ukraine's energy security, improve the energy legal and regulatory environment in the country, and increase the resilience of Ukraine's energy supply. This will help to support country's economic development and sustain its democracy. ESP is working closely with the Government of Ukraine (GOU) to develop competitive energy markets. By doing so, ESP will facilitate private sector-led energy investments to provide affordable, reliable, resilient, and secure energy for all Ukrainians. ESP is currently in the third year of implementation and will run through June 2023.

POSITION SUMMARY:

Tetra Tech ES, Inc. implementing the USAID Energy Security Project is looking to fill the position of **Standardization Expert in Gas Measurements and Gas Infrastructure** to help and support the Gas Team in implementation of Ukraine's new gas market including the harmonization of gas market rules of Ukraine with the EU internal market. This is a short-term consultancy position.

****Please note: Only citizens of Ukraine are eligible for this position. **.**

RESPONSIBILITIES:

- Adoption of International and European gas standards as national standards:
 - ✓ Providing translation and scientific and technical editing;
 - ✓ Providing terminology analysis;
 - ✓ Preparing final draft of national standard, identical to international standard;
 - ✓ Supporting the standard in Technical Committee and NSB.

QUALIFICATIONS:

- Master's degree or equivalent in Economics, Energy, Engineering, Metrology, Physics, Linguistics, and/or other related fields is required;
- Member of relevant Ukrainian Technical Committee(s) is a plus;
- Experience in national adoption of international and European Standards.
- Minimum 7 years of proven experience in the Gas & Energy sector (engineering, metering, gas analysis, standardization, metrology and/or other related fields) is required.
- Experience supporting USAID or other donor-funded energy projects in Ukraine or abroad is a plus;
- Ability to build effective relationships with peers, supervisors, clients, and stakeholders;
- Fluency in English (reading, writing) is required.
