

## Gas Network Expert / Senior Gas Network Expert

### Project Summary

The Energy Security Project (ESP) is a five-year project funded by the United States Agency for International Development (USAID) and the largest USAID project in Ukraine so far. The ESP is implemented by a USAID Contractor, Tetra Tech ES, Inc., a California-based leading provider of services in the areas of water, environment, infrastructure, resource management, energy, and international development.

The ESP mission is to enhance Ukraine's energy security, improve the energy legal and regulatory environment in the country, and increase the resilience of Ukraine's energy supply. This will help to support country's economic development and sustain its democracy. ESP is working closely with the Government of Ukraine (GOU) to develop competitive energy markets. By doing so, ESP will facilitate private sector-led energy investments to provide affordable, reliable, resilient, and secure energy for all Ukrainians. ESP is currently in the fourth year of implementation and will run through June 2023.

### Position Summary

Tetra Tech ES, Inc. is currently looking for a Gas Network Expert / Senior Gas Network Expert who will serve as a member of Energy Security Project (ESP) and will be a part of the Gas Team. This person will play a leading role in activities to support Ukraine's energy security and post war reconstruction. Of particular focus is the development, repair, procurement and reconstruction of gas infrastructures, including feasibility studies, investment cases, tariff elements for pipelines, compressor stations, above ground objects, production and storages. This is a remote full-time or consultancy position. This position will report to the Gas Sector Lead.

### Main Responsibilities

- Play a lead role in analyzing, recommending, preparing and supporting gas security of supply and infrastructure in Ukraine;
- Support the procurement of items crucial for the stable functioning of the gas sector in Ukraine, from upstream to midstream and downstream sectors;
- Proactively develop plans and recommendations for gas industry planning and investment activities to be supported by ESP;
- Coordinate and manage analytical and consultancy activity connected to gas planning and investment activities, supported by ESP;
- Undertake fundamental research and actively share insights with management, project members and key stakeholders. Work with other advisors to gather relevant information and assess needs, including areas where professional skills are needed to support the gas industry reform;
- Produce reports, insights and technical papers as agreed with the ESP Management team;
- Ensure data and information are managed effectively, efficiently and securely as appropriate across gas industry of Ukraine;
- Build relationships with key internal and external contacts through establishing regular contact and networking, especially the key infrastructure operators.

- Undertake projects and fulfil other duties, including facilitating and reporting on meetings, as may reasonably be required, in line with the incumbent's skills, knowledge, abilities and personal development opportunities;
- Distribute information on Ukrainian gas sector activities to stakeholders in EU and USA, including representatives from Ukraine Support Group of European Commission, Energy Community Secretariat, Gas TSO of Ukraine, Government of Ukraine, Naftogaz of Ukraine, NEURC, and other stakeholders that have influential authority over decision-making in gas market;
- Other responsibilities, as designated by the ESP management team.

## Qualifications

- At least 10 years of experience in the gas sector and detailed understanding of the gas industry, including planning and investment related activities;
- Excellent document (Word, Excel, PowerPoint, etc.) drafting skills and strong presentation and negotiation skills, understanding of gas infrastructure is preferred, as well as, the technical, financial, economic mechanisms that are interrelated in the creation of a fully functioning gas network in Ukraine;
- Able to analyze difficult situations and formulate actions that can lead to desired results;
- Experience working with data sets, excellent quantitative skills and problem-solving skills;
- A strong ability to listen and communicate a clear message of purpose to these groups that have varied interests and diverse viewpoints is clearly desired;
- University degree, preferably in business management, engineering or finance, or equivalent acceptable to Tetra Tech;
- Fluency in English essential. Ability to speak Ukrainian is a strong advantage;
- Experience working on USAID or other donor-funded projects is a plus;
- Experience working with government agencies is a plus;

## In return the Gas Network Expert / Senior Gas Network Expert will get

- The possibility to rapidly progress the career by working on some of the most important political and economic issues in Ukraine and the region today;
- The ability to shape and manage own career in a modern, inclusive work environment of international and Ukrainian experts.;
- A work/life balance, as well as paid 24 working days of vacation and 12 working days of sick leaves;
- A competitive salary, corporate medical insurance/mobile phone coverage;
- Support, coaching and mentoring for growth.

To apply: Please submit a CV in English and a brief cover letter with the title of the position in the subject line to [UESPjobs@tetrattech.com](mailto:UESPjobs@tetrattech.com)

There is no deadline associated with this position, Tetra Tech may fill the position when a qualified person is found. Only candidates who have been selected for an interview will be contacted.
