Energy Sector Experts

Project Summary

The Energy Security Project (ESP) is a five-year project funded by the United States Agency for International Development (USAID)1 and the largest USAID project in Ukraine so far. The ESP is implemented by a USAID Contractor, Tetra Tech ES, Inc., a California-based leading provider of services in the areas of water, environment, infrastructure, resource management, energy, and international development.2

The ESP mission is to enhance Ukraine's energy security, improve the energy legal and regulatory environment in the country, and increase the resilience of Ukraine's energy supply. This will help to support the country's economic development and sustain its democracy. ESP is working closely with the Government of Ukraine (GOU) to develop competitive energy markets. By doing so, ESP will facilitate private sector-led energy investments to provide affordable, reliable, resilient, and secure energy for all Ukrainians. ESP is currently in the fifth year of implementation and will run through June 2025.

Position Summary

Tetra Tech ES, Inc, is recruiting for a variety of energy sector experts to implement technical activities, coordinate closely with the client and local stakeholders, and work closely with the program management team.
